 - 28 students as of August 31, 2020
6. The method used by the institution to determine which students receive Emergency Financial Aid Grants and how much they would receive under Section 18004(a)(1) of the CARES Act:

- The Department of Education has given colleges and universities discretion to determine how this emergency assistance will be disbursed to eligible students. Understanding that many of TBI students have experienced financial hardships as a result of the pandemic, Taylor Business Institute's intention is to ensure that students with the most urgent needs are the first to receive the emergency grant funds. In accordance with the directive from Education Secretary Betsy DeVos, institutions are to prioritize funding for those students with the greatest needs, while distributing grants as widely as possible for maximum impact. The distribution of grants to eligible students is as follows:
 - The institute will base its grant distribution on Pell eligibility. Those students with an EFC of zero, will be the most in need, and will receive \$1500.
 - A Pell eligible student with an EFC greater than zero will be considered for grant funds after those with an EFC of zero
7. Instructions, directions, or guidance provided by the institution to students:
